

# The world's smallest Professional Laser Rangefinder

## Throw away your tape measures!

With dimensions of 100 x 58 x 32 millimetres, the new DLE 50 Professional is the world's smallest professional laser rangefinder. It is the ideal tool for anyone who wants to measure lengths, areas or volumes. At the push of a button the DLE 50 precisely measures distances up to 50 meters. The softgrip housing also protects the tool from knocks and bumps that may occur on the job. So whatever trade you're in, the DLE50 is for you!

# New DLE 50 Professional Laser Rangefinder

## Use is simple

**NEW**

**Actual Size**

Incredible accuracy is assured thanks to laser measuring technology.

Specification	New Laser Rangefinder DLE 50
Laser Diode	635nm, <1mW
Laser Class	2
Measurement Range	0.05m-50m
Measurement Accuracy	±5mm/50m
Power Supply	4xLR03 (AAA)
Measurement Time	0.5sec – 4sec
Weight	approx. 250g

**SSP excluding Vat: £119.00**  
**SSP including Vat: £139.83**
